Part II: Certification

| II. Health information | II.a. Certificat reference number | II.b.Local reference number: |
|---|---|---|
| | | |

☐ I, the undersigned official veterinarian, hereby certify, that the animals described above meet the following requirements

The animals were either:

1. (a) born and have been reared since birth on Community territory (3)

or

(b) imported from a third country satisfying the animal health conditions laid down in Commission Dec 93/198/EEC in accordance with Article 8 of Directive 72/462/EEC (3)

2. ☐ 1. they have been inspected today (within 24 hours prior to loading) and show no clinical sign of disease;

☐ 2. they are not animals which are to be destroyed under a scheme to eradicate a contagious or infectious disease;

☐ 3. they were not obtained from a holding which is the subject of a prohibition on animal health grounds and they have not been in contact with animals from such a holding, it being understood that:

3.1. such prohibition is connected with the outbreak of one of the following diseases to which the animals are susceptible:

- brucellosis, - rabies, - anthrax;

3.2. after slaughter and/or destruction of the last animal suffering from or susceptible to one of the above diseases, the duration of the prohibition must be at least:

- 42 days in a case of brucellosis, - 30 days in a case of rabies, - 15 days in a case of anthrax;

3.3. they do not come from a holding nor have been in contact with animals from a holding in a protection zone which has been set up under Community legislation and which animals are prohibited to leave;

3.4. they are not the subject of animal health measures pursuant to Community legislation on foot-and-mouth disease nor have they been vaccinated against foot-and-mouth disease;

4. Based on the written declaration made by the keeper or an examination of the holding register and movement documents kept in accordance with Council Regulation (EC) No 21/2004, in particular in Sections B and C of the Annex of that Regulation,

☐ 4.1. they have been obtained from a holding in which they have been continuously resident for a period of at least 21 days prior to loading, or since birth in the holding of origin where the animals are less than 21 days old, and into which no bi-ungulate animal imported from a third country has been introduced during the last 30 days prior to dispatch, unless those animals were introduced in accordance with Article 4a (2) of Directive 91/68/EEC;

4.2. they either

- (i) have been obtained from a holding into which no animal of the ovine or caprine species has been introduced, unless those animals were introduced in accordance with Article 4a (2) of Directive 91/68/EEC, during the last 21 days prior to dispatch from the holding (3) , or

- (ii) they are to be consigned directly from a single holding to the slaughterhouse of destination (3).

5. ☐ 1. The animals were transported using means of transport and containment which had, before-hand, been cleaned and disinfected using an officially approved disinfectant, and in such a way as to provide effective protection of the animals' health status.

2. Based on the official documentation accompanying the animals the consignment covered by this health certificate started the journey on [insert date](4) (5).

3. At the time of inspection the animals were fit to be transported on the intended journey in accordance with the provisions of Directive 91/628/EEC (6).

6. This certificate

(i) is valid for 10 days from the date of inspection on the holding of origin, or in the approved assembly centre or approved dealer's premises in the Member State of origin (3) , or

(ii) expires in accordance with Article 9 (5) of Directive 91/68/EEC on [insert date] (2) (3).

Blue Tongue (BT): exemption from the exit ban

- BT-1: Animals in compliance with Article 7(1) or 7(2)(a) or 7(2)(b) or 7(2)(c) , (indicate as appropriate) of Regulation (EC) No 1266/2007.
- BT-2: Animals , semen , ova and embryos , (indicate as appropriate) in compliance with Article 8(1)(a) or 8(1)(b) or 8(4) ,(indicate as appropriate) of Regulation (EC) No1266/2007.
- BT-3: Insecticide/repellent treatment with (insert name of the product) on (insert date) at (insert time) in conformity with Regulation (EC) No 1266/2007.
- BTA1: Animal(s) were kept until dispatch in a bluetongue seasonally-free zone during the seasonally vector-free period that started on (insert date) since birth or for at least 60 days and, if appropriate (indicate as appropriate), were then subjected to an agent identification test according to the OIE Terrestrial Manual on samples taken within seven days prior to dispatch, with negative results , in conformity with Annex III.A(1) to Regulation (EC) No 1226/2007.
- BTA2: Animal(s) in conformity with Annex III.A(2) to Regulation (EC) No 1266/2007
- BTA3: Animal(s) in conformity with Annex III.A(3) to Regulation (EC) No 1266/2007
- BTA4: Animal(s) in conformity with Annex III.A(4) to Regulation (EC) No 1266/2007
- BTA5: Animal(s) vaccinated against bluetongue serotype/s (insert serotype/s) with (insert name of the vaccine) with a inactivated / modified live vaccine (indicate, as appropriate) in conformity with Annex III.A(5) to Regulation (EC) No 1266/2007.
- BTA6: Animal(s) subjected to a serological test according to the OIE Terrestrial Manual to detect antibodies against the bluetongue virus serotype (indicate serotype) in conformity with Annex III.A(6) to Regulation (EC) No 1266/2007.
- BTA7: Animal(s) subjected to a specific serological test according to the OIE Terrestrial Manual to detect antibodies against all the bluetongue virus serotypes (indicate serotypes) present or likely to be present in conformity with Annex III.A(7) to Regulation (EC) No 1266/2007.
- BTA8: Animal(s) is (are) not pregnant" or "Animal(s) may be pregnant and complies (comply) with the condition(s) set out in points 5(b) before insemination or mating , set out in points 5(c) before insemination or mating , set out in points5(d) before insemination or mating , set out in points 6 before insemination or mating , set out in points 7 before insemination or mating , or set out in point 3 ; (indicate as appropriate).

**Part II: Certification**

| II. Health information | II.a. Certificat reference number | II.b.Local reference number: |
|---|---|---|
| | | |

1. Health certificates may be drawn up only for animals which are to be transported in the same railway wagon, truck/lorry, aircraft or boat/ship, which originate from the same holding and which are being sent to the same consignee.
2. To be completed in case of consignment grouped in an approved assembly centre located in the Member state of transit.
3. Delete where not applicable
4. To be completed in case of consignment grouped in an approved assembly centre or in approved dealer's premises.
5. In the case where a consignment is grouped in an assembly centre and comprises animals that were loaded on different dates, the date at which the journey commenced for the whole consignment is considered to be the earliest date when any part of the consignment left the holding of origin
6. This statement does not exempt transporters from their obligations in accordance with Community provisions in force in particular regarding the fitness of animals
